ABOUT

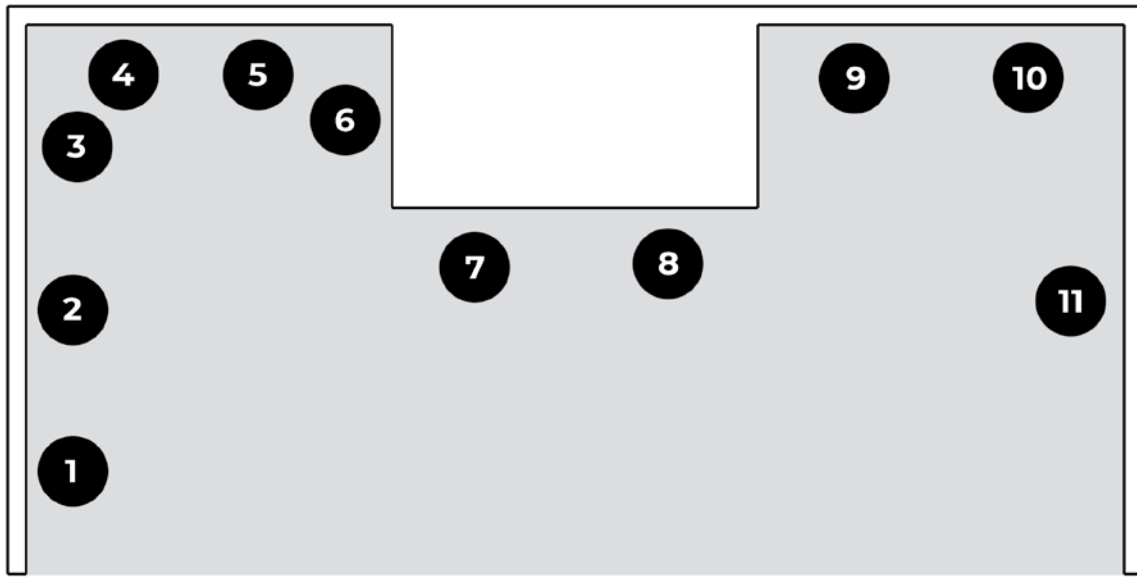

The Hong Kong Arts collective was established in 2019 by local artists for local artists. It was created to support and promote artists living and working in Hong Kong. We work with the arts community to find and create opportunities for not only our artists but the arts community as a whole. We started as an alternative way for artists to exhibit their work and have grown to do art fairs, work with corporates who are looking for artwork, use our social media as a platform for our artists, create exclusive artwork that supports charity and much more.

OUR OBJECTIVES

- To bring the Hong Kong arts scene to a global scale
- To support and nurture artists living and working in Hong Kong
- To find and create opportunities for artists
- To create a vibrant and inclusive community
